B. To be completed by the department :

1. Please provide a summary of the purpose of this legislation (Justification Statement).

The Atlanta Police Department is committed to both regional cooperation and use of advanced technology to suppress crime. To this end, the Department has received a new grant from the Georgia Bureau of Investigation to install live scan equipment in two patrol zones so that electronic images of fingerprints and mugshots can be transmitted from zone to zone and to neighboring jurisdictions. Legislation is required to anticipate and appropriate grant funds so that procurement of program equipment and supplies may begin.

2. Please provide background information regarding this legislation.

Violent criminals often cross jurisdictional boundaries when engaged in their crime sprees. Experience has shown that violent criminals will flee by any available means, including private automobile or public transit and continue their violent rampage within other jurisdictions. Such behavior makes it essential for perpetrator information to be shared both Citywide and with adjacent law enforcement agencies to enhance perpetrator identification and speed

apprehension. Implementation of this grant funded initiative will prove to be an essential tool for getting violent career criminals off the street so that citizens may live in a more crime free environment.
